Futuraula Speaks

From Barcelona:

'Futuraula says goodbye to 2020/21 academic year in style! May has seen the return of some really cool online workshops, like gluten-free cooking, make-up, fitness and zumba. The workshops were the last of this year's fundraising events for Indian Futures.

This year, and in particular the Futuraula/DevSoc collaboration, has been an amazing one full of excitement and opportunities. Now it's time to start thinking of the next one!!'

Poster created by Futuraula students to advertise the zumba workshop on 16th May

News from India

India covid aid

On 10th May, Indian Futures started a campaign to collect funds in order to support our communities in these incredibly difficult times.

We've agreed with our Indian partners that our funds will be used to cover the costs of PPEs, masks, face shields, sanitisers and gloves in the rural primary health care centres of Kanjanur and Vedanthangal.

We will send funds regularly so you still have time to donate. Just follow the link below this eBulletin!

In Tamil Nadu, every Primary Health Centre has a team of doctors and nurses that visits patients door-to-door in the most remote villages
